

Ryan Bryant

Marquette, MI | 906-361-1838 | ryanbryant.cyber@gmail.com | linkedin.com/in/ryqn-bryant-a35754305 | ryanbryant-cyber.github.io

Professional Summary

Cybersecurity bachelor's student targeting Cybersecurity Analyst and SOC Analyst roles, with hands-on portfolio experience across security operations, cloud security, GRC, IAM/RBAC, detection engineering, DFIR, threat intelligence, malware analysis, DevSecOps, network forensics, and automation. Built an isolated Wazuh/Suricata/osquery lab, a connected Northstar Ridge enterprise-security program, and a public Security Operations Toolkit with working Python, Sigma, YARA, IOC-triage, secrets-scanning, and PCAP projects. Translate technical evidence into risk findings, detection logic, remediation recommendations, and stakeholder-ready reporting.

Technical Skills

Security Operations & DFIR: Wazuh SIEM/XDR | Suricata | Alert Triage | Log Analysis | Incident Response | Windows Event Analysis | PCAP Analysis | Wireshark | MITRE ATT&CK

Detection & Automation: Python | Sigma | YARA | osquery | IOC Analysis | Threat Intelligence | Detection Engineering | Behavioral Correlation | JSON/CSV | Regex

Cloud & Architecture: Microsoft Azure | Entra ID | Conditional Access | Azure RBAC | PIM | Sentinel | Zero Trust | Network Segmentation | Security Architecture

GRC & AppSec: NIST CSF 2.0 | IAM/RBAC | BC/DR | BIA | RTO/RPO | Third-Party Risk | DevSecOps | Secrets Detection | Secure Configuration Review

Education & Credentials

University of Phoenix, Phoenix, Arizona

Bachelor of Science in Cybersecurity | Expected May 2028

Academic Honors: President's List (1) | Dean's List (2) | Honor Societies: NSLS | Epsilon Pi Tau (Delta Sigma Chapter)

Credentials: Cloud, Wireless, & Threat Response Tactics (Apr 2026) | Endpoint & Data Protection Strategies (Mar 2026) | Google Data Analytics Professional Certificate (Apr 2025)

Selected Cybersecurity Projects

Northstar Ridge Financial Services Security Program | 2026

- Developed a connected fictional enterprise-security program spanning NIST CSF 2.0 risk assessment, IAM/RBAC, BC/DR, third-party risk, secure enterprise architecture, and Azure cloud security.
- Produced an 11-finding risk register, RBAC design across 13 systems, 10-service BIA with RTO/RPO, 22-control vendor assessment reducing target residual risk from 4.1/5 to 2.1/5, Zero Trust architecture, and Azure Finance VM security assessment covering Entra ID, Conditional Access, PIM, segmentation, Sentinel, and recovery validation.

Security Operations Toolkit | 2026

- Built a public technical repository with working projects across threat intelligence, detection engineering, DFIR, malware analysis, DevSecOps, and network forensics.
- Developed an IOC triage utility, Sigma Windows detections, multi-source DFIR timeline, YARA file detections, secrets/configuration scanner, and synthetic PCAP investigation; validated 8/8 Sigma results and 5/5 YARA results with zero false positives/negatives, plus 8 secrets findings across 7 synthetic files.

Security Operations Engineering | 2026

- Developed a Python alert-triage pipeline that normalized 42 Suricata/Wazuh records into 21 unique events with zero parser errors and SHA-256 evidence validation.
- Built an osquery endpoint-hunting pack across seven security domains and a guarded Wazuh Active Response workflow with source-specific iptables containment and verified 120-second rollback.

Leadership & Military Experience

U.S. Army | 2013-2020

- Held leadership positions across three units and was selected to manage a division-level armory, reinforcing accountability, sensitive-asset control, procedural compliance, and team coordination.
- Received multiple Army Achievement Medals (AAMs) and Certificates of Achievement (COAs) for performance and service.

Portfolio

ryanbryant-cyber.github.io - 19 documented cybersecurity investigations and assessments spanning SOC operations, GRC, IAM/RBAC, BC/DR, third-party risk, cloud security, security architecture, vulnerability analysis, endpoint hunting, automation, and stakeholder reporting.

github.com/ryanbryant-cyber/security-operations-toolkit - Public technical repository featuring threat intelligence, Sigma detection engineering, DFIR, YARA, DevSecOps automation, and PCAP network forensics projects.
